ABOUT ME

I am a Muhammad Waqas a Junior Flutter Developer with a strong interest in mobile app development. I have building Android applications using Flutter and Firebase. I am eager to learn new technologies, improve my skills, and create user-friendly applications. I am hardworking, responsible, and enjoy solving problems through programming.

SKILLS

- Flutter
 - Dart
 - Firebase Auth
 - Firebase Storage
 - Git & Github
 - Ms Word & Excel
 - Android Studio
 - UI/UX Implementation
 - API Integreatoin, REST APIs
-

PROJECTS

- AxionKey – Password Manager App

Developed a secure password manager application using Flutter and Firebase. The app allows users to safely store and manage passwords for social media, email, banking, and other online accounts. It features user authentication, cloud data storage, and a simple, user-friendly interface for easy access to saved credentials.

- VeinX – Blood Donation & Blood Request App

Developed a Flutter-based blood donation and blood request application using Firebase. The app allows users to register, search for blood donors by blood group and location, send blood requests, and manage their availability. It includes secure user authentication, real-time data management, notifications, and a simple, user-friendly interface.

WORK EXPERIENCE

Self-Employed Flutter Developer | 2026

- **Flutter App Developer**

Developed mobile applications from home using Flutter and Firebase. Worked on UI design, authentication systems, database integration, and app functionality while improving programming and software development skills.

Self-Employed / Home-Based Work | 2025

- **Android App Developer**

Worked independently from home on computer-related tasks and mobile application development projects. Gained practical experience in problem-solving, communication, time management, and handling technical tasks responsibly.

EDUCATION

Punjab Group of Colleges| 2025-2026

Intermediate in Computer Science(ICS)

Completed Intermediate in Computer Science (ICS) with a strong foundation in computer science, mathematics, and information technology. Developed analytical and problem-solving skills while gaining knowledge of programming concepts, computer systems, and software applications like excel and word.

Alsuffah Model High School System Mochh| 2022-23

Matriculation (Science – Biology) 2022-2023

Completed Matriculation with Biology as the major science subject. Gained a strong foundation in biology, chemistry, physics, and general science while developing analytical thinking, problem-solving, and scientific knowledge.
